

5th Sharing Time

1. What GMT Times does your time frame cover? Remember GMT does not have the colon (:) or AM/PM.
2. For each day, note what you are doing at school during these times. Include nutrition, recess, lunch, chapel, all classes, and after school activities. If a class or other activity is only for part of the time, indicated write down what times does apply. For example, Chapel is from 8:30am-9am not the entire time period.
3. For each item in #2, write what you are doing in that class or at recess or during chapel, etc. Be detailed about what you do and what you are learning. Don't forget your enrichment classes. If you are covering before or after school, don't forget to talk about daycare and any planned activities that happen in those times.
4. For each item in #2, write about what you would like to take pictures of to show what it is happening during your time of the day.
